**Subject: Product ID Number Changes**

To Whom It May Concern:

This letter is to inform you of some changes you may have noticed in our product labels and box labels. These changes started in December 2001 and are a result of enhancements we have made in our ERP system.

The six digit numerical code in the body of the ID number fully defines the product. You may notice in the id number a single letter suffix or a two-digit (two zero) prefix.

Example:     455398  
              455398H  
              00455398

All three of these numbers identify the same product and in no way affect the form, fit or function of the product.

We apologize for any inconvenience this may cause. Please do not hesitate to contact your Area Sales Manager or me if you have any questions.

Sincerely,

Craig Occhiato  
VP of Engineering, BC-USA
